## Training on skill development on bamboo charcoal, briquette making

STAFF CORRESPONDENT

JORHAT, June 15: The Indian Council of Forestry Research and Education (ICFRE)-Rain Forest Research Institute (RFRI) at Sotai on the Jorhat outskirts, organised a three-day-long training programme (June 10 to 12) on 'Skill development on bamboo charcoal and briquette making' for the people of Charingia Gaon, Bhogamukh, Jorhat.

An ICFRE-RFRI official informed that the training programme was held as part of the demo village project implemented by the institute at Charingia village, Bhogamukh.

ICFRE-RFRI Director Dr Nitin Kulkarni, in his inaugural address, appealed to the participants to make use of the skills to be acquired during the training period for livelihood generation.

Dr RB Borthakur, Chief Technical Officer of the institute, imparted hands-on as well theoretical sessions. During the training programme, demonstrations were conducted on different processes involved on bamboo charcoal and briquette making.

The trainees were taught about staking of bamboo inside the brick kiln, firing of bamboo in anaerobic condition, harvesting of bamboo

charcoal from kila, grinding of raw bamboo charcoal, preparation of adhesive agent for making briquettes, making of briquettes/drying etc.

Dr Borthakur also delivered a presentation on different applications of bamboo charcoal and sensitized the participants to take up this venture as an livelihood earning option after the training programme. Certificates were distributed to the participants at the end of the three-day training programme by the Director Dr Nitin Kulkarni. RK Kalita, Head, Extension Division of the institute, planned and executed the training programme.
